

# ELOP A-TIM

Advanced Clip-on Thermal Imaging Sight for ATGM Launchers

Anti-tank guided missiles have become a key element of modern warfare. Until now, their optimal use has been limited to daytime and clear environmental conditions.

Elbit Systems Electro-optics Elop has introduced a new clip-on solution that over comes this limitations, using a 3-5 $\mu$ m thermal imager.

## Main Advantages & Features

- A thermal sight mounted on ATGM launchers provides full operability: day, night and poor visibility conditions
- Boresight free - quick installation on standard launcher day sight
- Uses existing eyepiece for both standard and thermal sight
- Lightweight compact system - only 7.7 kg, including battery

## Applications

- Applicable for any ATGM launcher
- Already operational with:
  - FAGOT
  - FLAME
  - Konkurs/
  - AT-5 Spandrel

# ELOP A-TIM

## Advanced Clip-on Thermal Imaging Sight for ATGM Launchers

### Technical Data

#### Fields of view:

Spectral band	3-5 $\mu$ m
Wide	7.5° X 6.0°
Narrow	2.5° X 2.0°

#### Detector:

Type	InSb FPA
No. of pixels	320 x 256
Video signal	RS170 or CCIR
Power consumption	< 20 W
Power source	
Option A	LiSO2 battery (Disposable)
Option B	NiMH battery (Rechargeable)

#### Weight:

A-TIM	6.3 Kg
Battery	1.4 Kg

#### Environmental:

IAW MIL-STD-810	
Conforms with JSS 55555	
Operating Temperatures	-37°C to +49°C
Storage Temperatures	-46°C to +71°C

### Range Performance:

#### Elbit Systems Ltd.
